

GARDEN MULCHING

Now is the time to be mulching your gardens. If you are already signed up please disregard this letter. For our Gold Plan Accounts mulching your gardens is a requirement as per your contract. Mulching your garden is important for the following reasons:

- To protect your shrubs, trees and bedding plants.
- To ensure proper moisture near the root zone. (This could save you half the amount of water compared to unmulched gardens.)
- To keep weeds in check so the crew can keep your home looking its best.
- Do not forget to water you landscape it needs about 1" of water per week during the summer months.
